The Rossi® Story

The Rossi revolution of firearm design and manufacture started with the founding of the company in 1889 by Amadeo Rossi. Over the past 120 years, the tradition of innovation grew along with the company and the Rossi family. The Rossi name represents a piece of firearm history and a tradition of excellence.

Rossi is the industry-leading manufacturer of single-shot, matched pairs, muzzleloaders, rifles and shotguns. Today, a Rossi firearm still features the same dedication and innovation in every firearm. Rossi looks forward to providing you with the next generation of great firearms.

President's Letter

As you take time to review the 2013 Rossi firearms catalog, I invite you to meet our family of products. While turning each page, your journey will reveal firearms in our line that, for over a century, have created a profound impact on hunters and shooters of all ages. A company whose rich heritage has placed food in the freezer from days in the field. Creating smiles on faces of both young and old from their time spent shooting at the range or just simply plinking with friends.

Today, Rossi is still providing fun and affordable opportunity for friends and families to share in an iconic, American tradition. As we move into the next 100 years, we look forward to having you become part of our Rossi family and share your shooting and hunting experience with all of us.

# Rossi® Revolvers

## A CENTURY OF QUALITY AND RELIABILITY

These handguns are built to the same quality and reliability standards that have been part of the Rossi name for more than 100 years. All Rossi revolvers feature deep, contoured finger grooves in the grip for a solid grasp and maximum shooting comfort. Rossi revolvers are machined from forged steel and will routinely fire powerful .38 Special +P, or hard-hitting .357 Magnum rounds for the lifetime of your revolver.

### .357 Magnum

In .357 Magnum, Rossi has two long barrel offerings – Model 971, a Blue Steel 4-inch barrel and Model 972, featuring a Stainless Steel 6-inch barrel. Rossi also offers two short barrel .357s—the Model 461 Blue Steel and the Model 462 Stainless Steel with two-inch barrels. While they are built extra tough to handle all .357 Magnum cartridges, they will fire the popular .38 Special +P rounds as well.

#### .357 MAGNUM FEATURES:

- 2", 4" or 6" Models
- Available in Blue or Stainless Steel Finish
- Adjustable Rear Sights on 4" and 6" Models
- Red Inserts with Elevated Front Sights on 4" and 6" Models
- Taurus Limited Lifetime Repair Policy
- Taurus Security System®

### .38 Special +P

In .38 Special +P, Rossi offers the Model 851 with a 4-inch vented barrel and 6-round capacity. Rossi also offers two small frame, 5-shot revolvers chambered in .38 Special +P: the Model 351 in Blue Steel and the Model 352 in Stainless Steel. Two-inch barrels make them favorites for concealed carry and home defense.

**WARNING concerning ammunition marked “+P” and “+P+”.** Recently there have been many developments by ammunition manufacturers and reloaders, not all of them good. It seems some ammunition manufacturers and reloaders are in a horsepower race to see who can develop the most case pressure and muzzle velocity with little regard for practicality or safety. Some of these loads exceed common sense and can virtually tear metal apart. Rossi Firearms rated for “+P” ammunition are rated for Sporting Arms and Ammunition Manufacturers Institute (SAAMI) compliant “+P” ammunition. **SAAMI does not recognize any “+P+” ammunition at all. It is DANGEROUS to fire “+P+” ammunition in any Rossi firearm and if you do so you may be seriously injured or killed.**

**DANGER for “+P+”**  
**Never use “Plus -P -Plus” (+P+) rated ammunition in any Rossi firearm.** The Sporting Arms and Ammunition Manufacturers Institute (SAAMI) does not recognize such ratings and such ammunition can be very dangerous. Firing such ammunition can cause catastrophic failure in firearms resulting in serious bodily injury or death.

**WARNING for “+P”**  
Only fire SAAMI rated Plus P (“+P”) ammunition in Rossi Models designated by Rossi for +P use. Firing +P ammunition in other Rossi products may be dangerous and can result in serious bodily injury or death. **Approved Rossi models include, and are limited to, any firearm chambered in 38 Special.**

**WARNING**  
Even if your Rossi firearm is rated for Plus-P (“+P”) ammunition, such ammunition generates pressures significantly in excess of the pressures associated with standard ammunition. Such pressures may affect the useful life of the firearm or exceed the margin of safety built into many firearms. Unless you need +P ammunition, do not use it, particularly for practice.

In addition, it seems some ammunition marked “+P” is not SAAMI compliant either. **There are only four calibers that can carry a “+P” rating from SAAMI.** They are 38 Special +P, 9mm Luger +P, 38 Super Automatic and 45 Automatic +P. **There are no other SAAMI approved “+P” loads.** Any ammunition in any other caliber marked “+P” is not SAAMI compliant, may be dangerous and should not be used.
